# Luksuzna funkcionalnost

## *Luxury functionality*

Moderni drveni dekori i geometrijski motivi prave razliku između običnog namještaja i ovog u „Art Deco“ stilu. Univerzalni i prepoznatljivi motivi kubizma i secesije našli su primjenu u mnogim enterijerima ljubitelja luksuzne funkcionalnosti. Ono što enterijer inspirisan modernim stilovima razlikuje od drugih enterijera jesu snažne konture, jasne i čiste boje, jednostavnost linije i visoki sjaj.

Modern wooden decors and geometric motifs make a difference between ordinary furniture and this one in “Art Deco” style. Universal and distinctive motifs of Cubism and Art Nouveau have been applied in numerous interiors of luxury functionality lovers. What differs an interior inspired by modern styles from other interiors are powerful contours, clear and pure colours, line simplicity and high gloss.

## Odvažna kombinacija boja *Bold combination of colours*

Siguran odabir boje za tamne prostore je topla žuta boja, koja svakom prostoru donosi sjaj sunčanog dana. Veselo ugodaj u enterijeru nastaje kombinovanjem nijansi žute boje, od tonova luksuznog zlata i slasne karamele, preko sočnog limuna, pa sve do nježnih nijansi cvijeća. Ova radosna, bogata i izražajna boja u svakom enterijeru, kroz timski rad sa svojim primarnim kolegicama, crvenom i plavom, kreira cijeli spektar boja i intenzivnih zona stana.

A safe colour choice for dark spaces is warm yellow, bringing the glow of a sunny day to any space. Bright atmosphere in the interior is created by mixing shades of yellow, from tones of luxury gold and delicious caramel, through juicy lemon, to gentle flowery shades. This joyful, rich and expressive colour, teamed with its primary counterparts, red and blue, creates an entire spectrum of colours and intensive apartment zones in any interior.

Odlična kombinacija drveta i kamena koja sa savršenom dozom elegancije daje ovom stanu potpuno nov, moderan i luksuzan izgled. Masivni komadi namještaja od punog drveta odaju utisak svevremenskog i neuništivog, sve zaokruženo u jednu cijelinu sa modernim detaljima i tehnologijom integriranom u dizajn enterijera. Samo najbolje je dovoljno dobro.

An excellent combination of wood and stone, with a perfect dose of elegance, brings a completely new, modern and luxury look to this apartment. Massive pieces of solid wood furniture create the impression of contemporary and indestructible, all rounded up in a single unit with modern details and technology integrated into the interior design. Only the best is good enough.

“Tvari: ljubav, posao i uživanje.”

tvari: ljubav, posao i uživanje.”

## Funkcionalnost prostora

### *Space functionality*

Design

Ugodno okruženje postignuto je upotrebom drveta u skoro svim segmentima enterijerskog uređenja. Akcenat je ovdje stavljen na drvene zidne obloge i kombinaciju drveta i svijetlih ploha. Toplini enterijera doprinosi i prostor koji dozvoljava multifunkcionalan razmještaj: tri različite, ali vizualno povezane oblasti - trpezarija, kuhinja i dnevna soba jasno su definisane u okviru prostorne cjeline, povezane međusobnom igrom površina.

Pleasant surroundings were obtained using wood in almost all segments of the interior design. Here, the emphasis on wooden wall surfacing and combination of wood and bright surfaces.

The warmth of the interior is also contributed by the space allowing for a multifunctional arrangement: three different, audio-visually connected areas – dining room, kitchen and living room are clearly defined within the special unit, connected through the interplay of the surfaces.
